WATER ZIMBABWE

VERTICAL MULTI-STAGE PUMPS

Designed to resist aggressive, corrosive liquids the CR/CRN/CRT series comprises some of our most flexible all-round pumps for a wide range of mining applications:

- Available in four different materials-cast iron, two grades of stainless steel and all-titanium.
- Customizable with a variety of shaft seals
- High efficiency motor
- Able to produce 50bar of pressure

DEWATERING PUMPS

The DW/DWK range features robust, high efficiency dewatering pumps, ideal for temporary installation in pits :

- Solid cast iron construction and narrow design.
- High efficiency motor
- Available in high chrome stainless steel impeller.
- MP204 available as an optional pump control.

HORIZONTAL END SUCTION PUMPS

The NB/NK end suction pumps are available in cast iron or stainless steel and are suitable for a variety of different mining applications requiring reliable, cost-efficient supply :

- Ideal water treatment processes
- Excellent corrosion-resistant properties
- Available with double seals for pumping of abrasive and aggressive liquids

WATER ZIMBABWE

SUBMERSIBLE BOREHOLE PUMPS(ELECTRIC/SOLAR)

An industry favorite for over 50years, Grundfos SP submersible pumps are renowned for their high efficiency and unsurpassed reliability:

- 100% Stainless steel
- High Resistance to sand and other abrasive materials
- Motor burn out protection
- Easy maintenance.

CHEMICAL DOSING PUMPS

The DMX & DMH are Motor-driven diaphragm dosing pumps The Grundfos DMH/DMX ranges are a series of extremely strong, robust pumps for situations where you need a substantial dosing range and high-pressure capability:

- Sturdy design
- Stroke length capacity control
- Leakage-free
- Motor control option with display and one-touch buttons and the following control options: Pulse control, Pulse division/multiplication, Analog 0/4-20 mA control and Flameproof motors with Atex 94/9/EC* certificate

FIRE PUMP SETS

Grundfos supplies fire pumps as part of a tested and approved fire system for industrial and commercial fire protection.

At Grundfos we have developed a range of fire protection sprinkler products and hydrant systems specifically for these developments. We also have devised a simple calculator to assist commercial building services specialists to design the right fire protection solution. Within a few simple steps you can help ensure that these high rise structures and their occupants will be safe in the event of a fire emergency.:

- Sprinkler & Water Misting Applications
- Domestic Commercial & Industrial
- Fully Compliant
